Inventta Cable Factory

Delivering infrastructure across Sub-Saharan Africa

J230: Inventta Cable factory

Client: Inventta Limited (ZAMCABLES)

Scope: Cable manufacturing facility, ditribution facility, offices and asscoaited works

Model: EPC

Engineering-led design and construction of a cable manufacturing plant in the Lusaka South Multi-Facility Economic Zone, including a manufacturing hall, finished goods store, offices and external works.

Key Outcomes:

- Full architectural, structural and civil design aligned to client budget
- Delivery of the facility within an active economic zone, with council and SEZ approvals

Engineering Highlight:
Raft foundation design for sinkhole conditions, with bulk earthworks and stormwater management providing a practical solution to difficult ground and site constraints.
